Aid to Families with Dependent Children (AFDC) The unusually high increase in expenditures is primarily attributed to a 7.0% increase in the basic needs standard, effective February 1, 1983. Unemployed Parent expenditures rose $442,660 (14.4%) while the number of families advanced by 436 (6.5%). In comparison, Regular costs grew $1,317,489 (9.4%) while experiencing a growth of 240 cases (0.6%).

The following table shows the value of the total assets of AFDC families by three-month intervals. The total value of the assets rose without interruption from June 1979 through March 1981. In June 1981, asset value dropped $63,463,487 (25.5%). At this time, approximately 6,000 stepparent cases were closed. Following this occurrence, asset value remained relatively stable until March 1982 when it was reduced $24,183,961 (12.8%). During this period, nearly 4,800 cases whose gross earnings exceeded 150% of the basic needs standard were closed. An additional 745 of these cases were closed in the April to June 1982 period, which helped significantly to lower the asset value by $10,766,323 (6.5%). For the remainder of calendar year 1982, asset value stabilized with no sharp deviations.

Emergency Assistance (EA) This program diminished during February to set new record lows for the number of families (395) and for expenditures ($193,340). Fewer AFDC families requiring assistance contributed to this reduction in monthly costs. The AFDC segment lost 82 families (-17.2%) and declined by $20,915 (-15.8%).

By contrast, the non-AFDC category "Other" displayed a mixed pattern with families falling by one and expenditures advancing significantly by $11,696 (16.7%). Increased need for utility-related assistance involving 77 cases (+29) and $23,155 (+$11,643) contributed to the rise within the non-AFDC category.

The AFDC reduction occurred within the three emergency areas of Eviction, Utilities and Other. Here, the number of AFDC families declined by eight (3.7%), 20 (27.0%) and 60 (34.7%) respectively. The largest AFDC payment decline occurred in the unspecified category of "Other" and amounted to -$11,043 (-29.3%). Eviction was second, declining by $7,801 (11.2%) while Utilities costs incurred by this segment decreased by $2,615 (-14.0%).

The annual comparison shows fewer families, off 314 (33.5%), and lower expenditures, down $83,459 (32.2%). Most of the annual change resulted from fewer requests for assistance with utilities.

The non-AFDC "Other" category led the annual utility decline with a $24,283 (51.2%) loss, but was followed closely by the AFDC-related costs which decreased $21,107 (56.9%). A smaller annual change occurred in the emergency of Eviction, where AFDC family aid fell by $21,727 (26.0%). The unspecified emergency of "Other", by contrast, registered only a slight decline of $1,655 (-3.8%).

Minnesota Supplemental Aid (MSA) This program was marked by a growth in recipients and higher expenditures during February. The recipient increase was modest, rising by only 10 to 9,928. Expenditures, by comparison, advanced by $31,387 (2.9%) to $1,113,298, a record high. The Disabled category was the focus of the recipient increase and rose by 30 cases or 0.4% to 7,104. This, however, was offset by a 22 (0.8%) person reduction in the Aged category, which dipped to 2,666, the lowest since June 1977.

The increase in the number of disabled recipients is believed to be the result of the gradual movement of the retarded into semi-independent living situations or halfway houses, as required by the Welsch vs. Noot consent decree.

Monthly record expenditures of $1,113,298 overshadowed the Disabled category, whose expenses climbed to a record $868,359. Of the Disabled increase of $23,534 (2.8%), $15,916 (67.6%) occurred in the urban counties where strong increases in Current +$15,830, Initial +$27,970, and Special Needs payments +$5,417 offset reduced corrective payments -$35,344.

The tables below show the MSA Program by category during February and compares it to January and February 1982.

General Assistance (GA) The total number of persons receiving GA for February 1983 was 11,475. This was 1,069 (10.3%) more than January 1983 and 2,880 (33.5%) more than February 1982. The average grant (gross dollars) per person for February 1983 was $189.09. This was $22.94 (10.8%) less than January 1983 and $8.45 (4.3%) less than February 1982.

Application activity decreased compared to January. The number of applications received was 2.3% lower and the total applications on hand decreased by 1.6%. The number of applications disposed of decreased by 2.4% to 3,417. Of these, 2,815 (82.4%) were approved.

The 2,815 cases added in February brought the total cases eligible to 11,488. This was an increase of 12.6% compared to January. Payments were made for 10,055 (87.5%) of the eligible cases. There were 3,042 cases closed which left 8,446 eligible cases continued to March.

Medical Assistance (MA) The cost-containment legislation that took effect on January 1, 1983, had its first effects with payments made in February for services rendered in January. This legislation reduced by 4% the amount that would be paid for MA care services rendered from January 1 to June 30, 1983.

The computed average daily MA payments for long-term care provided during December and January were $38.75 and $37.13, respectively, after excluding costs and recipients at state institutions. This indicates a 4.2% reduction in the average daily MA payment for nursing home care. This figure is greater than the 4% reduction specified in the law because nursing home rates were reduced by 4%. With recipients' payments for their own care remaining relatively constant, this caused MA payments for nursing home care to decline by more than 4%.

Total savings anticipated from the six-month reduction in MA payments are $12 million ($5.2 million state share).

(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2)Recipient recoveries represent third party collections such as health insurance payments, tort recoveries, and estate settlements, which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

(3)An additional $2,360 was paid out for EPSDT services during the month; however, these charges were billed in a different fashion and are included under other service types such as Public Health Clinic, Physician/Osteopathic Services, etc. Existing reports do not break these charges out separately.

(2) AFDC "Grand Total" cases - May 1982 is an unduplicated count; therefore, cases by segment will not add to total.

TECHNICAL NOTES

Public Assistance Programs: Applications and Cases Table	Application activity for the AFDC Program does not include applications for medical only needs.
Minnesota Public Assistance Activity Table	Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program. The GA total net payment data is preliminary and subject to occasional change, so the figures for earlier months may be different from the figures originally published for those months.
Table I	This table does not include cases and payments made under the Emergency Assistance Program.
Table III	The sixteen (16) counties identified by the Census Bureau as metropolitan (i.e., SMSA) are separated into urban and suburban. The urban counties are Hennepin, Ramsey and St. Louis, and the suburban counties are the thirteen (13) other SMSA counties. These counties are noted (U) and (S) respectively. Two multi-county agencies are labelled as follows: F-M-W HSB includes Faribault, Martin and Watonwan Counties; Region VIII North includes Lincoln, Lyon and Murray Counties.
Tables VI & VII	Recipients are people on whose behalf payments were made during the specified month by the State's centralized medical payment system. Recipients are divided into two categories: (1) Those whose Medical Assistance eligibility is based on receipt of cash assistance from AFDC, SSI or MSA. (2) Those whose Medical Assistance eligibility is <u>not</u> based on receipt of cash assistance from those programs (MA-Only recipients).
